Contents Volume 21

Announcement from the Publisher 1

Guest Editorial
D.D. Breimer and J.C. Verhoef (Netherlands) 3

Pharmacokinetic and pharmacodynamic basis for peptide drug delivery system design
D.D. Breimer (Netherlands) 5

Stability assessment of peptide and protein drugs
P.J.M. van den Oetelaar, P.S.L. Jansen, P.A.T.A. Melgers, G.N. Wagenaars and P.B.W. ten Kortenaar (Netherlands) 11

Radioimmunoassay, a goal or a tool? The setup of a reliable, fast, and cheap radioimmunoassay for vasopressin in biological samples
J.A. Ten Haaf, D. Terwel, B.J.M. Van de Heijning and T.B. Van Wimersma Greidanus (Netherlands) 23

Sample pretreatment techniques for the bioanalysis of peptides
R.C. Causon and R.D. McDowall (UK) 37

A novel in vitro screen to discover agents which increase the absorption of molecules across the intestinal epithelium
C.S. Schasteen, M.G. Donovan and J.N. Cogburn (USA) 49

The utility of the prodrug approach to improve peptide absorption
H. Bundgaard (Denmark) 63

Design of cholecystokinin peptidomimetics
M.G. Bock, R.M. DiPardo, B.E. Evans, K.E. Rittle, D.F. Veber, W.L. Whitter, R.S.L. Chang, V.J. Lotti, P.S. Anderson and R.M. Freidinger (USA) 73

In vitro reconstituted blood-brain barrier
M.P. Dehouck, S. Méresse, B. Dehouck, J.C. Fruchart and R. Cecchelli (France) 81

Peptide–blood-brain barrier interactions: kinetics and dynamics
A. Ermisch and H.-J. Rühle (Germany) 93

Neuropeptides, steroid hormones, stress and reproduction
E.R. De Kloet and Th.A.M. Voorhuis (Netherlands) 105

A biodegradable delivery system for peptides: preclinical experience with the gonadotrophin-releasing hormone agonist Zoladex®
B.J.A. Furr and F.G. Hutchinson (UK) 117

Factors influencing the release of peptides and proteins from biodegradable parenteral depot systems
D. Bodmer, T. Kissel and E. Traechslin (Switzerland) 129

Enhancement of intestinal peptide absorption
E. Touitou (Israel) 139

Nisomes for oral delivery of peptide drugs
H. Yoshida, C.-M. Lehr, W. Kok, H.E. Junginger, J.C. Verhoef and J.A. Bouwstra (Netherlands) 145

Buccal delivery for peptide drugs
H.P. Merkle and G. Wolany (Switzerland) 155

Microspheres ad a nasal delivery system for peptide drugs
P. Edman, E. Björk and L. Rydén (Sweden) 165

Absorption enhancers in nasal insulin delivery and their influence on nasal ciliary functioning
N.G.M. Schipper, J. Verhoef, S.G. Romeijn and F.W.H.M. Merkus (Netherlands) 173

Transdermal iontophoresis of amino acids and peptides in vitro
P.G. Green, R.S. Hinz, A. Kim, C. Cullander, G. Yamane, F.C. Szoka Jr. and R.H. Guy (USA) 187

Pulsatile and delayed release of lysozyme from ointment-like poly(ortho esters)
P. Wüthrich, S.Y. Ng, B.K. Fritzinger, K.V. Roskos and J. Heller (USA) 191

Abstracts 201
